

# INTERIOR ARCHITECTURE GROUP

INDIA'S LEADING PUBLICATION IN ARCHITECTURE & INTERIOR DESIGN BOOKS

CATALOGUE 2021-2022

# INTRODUCTION

We are an independent publishing group, focused on taking Indian Architects and their contribution to Indian Architecture to an international platform. Our core belief lies in publishing the best in design to the communities worldwide. IAG-Interior Architecture Group was founded in the year 2013, by partners, Manoj Sharma & Amandeep Singh.

Interior Architecture Group strives on delivering quality content through team effort and commitment to its set standards and goals. We come with an experience of 14 years in this industry and we keep on challenging our limits to provide the best content from various pan India projects.

Our books are developed with an intent of showcasing the best work of the industry. They are then reviewed by a series of jury panel until the best quality work is achieved. Our commitment lies in delivering the profound works from various parts of India.

Our source of inspiration is derived from the undying curiosity of readers worldwide, who wish to stay updated with the advancement of design. As we move ahead with this objective, we look forward to broadening our scope of interests and bringing forth the best from the field of design.

# TESTIMONIALS

" I have been through the book at least six times today and it continues to excite me. I have shared it with young and old colleagues in my studio. Their amazement surpasses mine. "

*Karan Grover*

(AR. KARAN GROVER)

" Indian architecture and design seems to have arrived on the world stage. There is an unapologetic celebration of colour and form that is integral to our own sensibilities and is confident of our own worth. This book bears testimony to all this and more. "

*Sunita Kohli*

(SUNITA KOHLI)

" An added advantage here is the layout plan of the restaurants given at the end of each chapter besides the materials being used. It can be of great help to aspiring architects on the threshold of a career. "

*Arun Loomba*

(AR. ARUN LOOMBA)

" IAG, over the years, seems to have taken on the job of highlighting such designers and their designs, with of course the well-known names already famous in the field. The result is some great books that represent the different aspects of design and architecture. "

*Ranjodh Singh*

(AR. RANJODH SINGH)

" the book provides a great platform for not only those new designers, but also the established names in the profession, allowing them to reach a greater audience across nation and worldwide. "

*Zafar Choudhary*

(AR. ZAFAR CHOUDHARY)
